

Century Plyboards

Revenues surprise positively; upgrade to BUY

- Top-line grew by 12% yoy to Rs4.3bn, above our and consensus estimates led by healthy revenue performance in both plywood (+11% yoy) and laminates (+22% yoy). CPBI benefited from demand shift in favor of organized segment induced by demonetization.
- Decline in margins by ~170bps yoy attributable to operating performance pressure in the laminates segment took a toll of EBITDA (Rs673mn; +1% yoy). PAT at Rs373mn is down 9% yoy, depressed by surge in depreciation and interest cost.
- Management expects strong growth momentum in both plywood and laminates segments to continue, while upcoming MDF segment is likely to further add to growth drawing benefits from GST implementation and shift from unorganized to organized segment.
- CPBI is sanguine of outperforming industry growth and attain sustainable market share gains. While we have maintained our FY17E EPS, we have cut our FY18E EPS by 5% factoring in conservatism in plywood segment growth. We upgrade our rating to BUY with a revised TP of Rs300 as we roll forward to FY19E (22x EPS – Rs13.6).

Revenues above our and consensus estimates

CPBI reported revenue growth of 12% yoy to Rs4.3bn for Q3FY17, above our and consensus estimates, as the company benefited from the demonetisation influenced demand shift from unorganised to organised sector. Cash crunch due to demonetisation compelled many unorganised players to stall operations which resulted in scarcity of supply, thus benefiting organised players like CPBI. Revenues were supported by 12% yoy and 6% yoy increase in realisations of plywood and laminates segments respectively. Although EBITDA (Rs673mn) growth was quite muted (+1% yoy) but still above our estimate of Rs573mn. The growth was impacted by fall in operational margins by 170bps yoy to 15.8% attributable to the margin constriction in the laminates segment by 290bps qoq/70bps yoy to 12.5%. Further, PAT at Rs373mn declined by 9% yoy hurt by escalation in depreciation and interest costs due to the recently commissioned particle board plant. Management expects growth momentum in both plywood and laminates segments to continue supported by demand shift in favor of the organized sector. Further, commissioning of MDF plant in March 2017 will support earnings growth from FY18.

Growth drivers in place; Upgrade to BUY

While we maintain FY17E EPS, we have cut our FY18E EPS by 5%, factoring in conservatism in plywood segment growth and slight decline in laminates segment margins. We believe that organized players like CPBI will be key beneficiaries of GST implementation as it will drive a demand shift in favour of the organized players. Gains on this account should be significant considering that 70% value market share and 80% volume market share in plywood sector is currently held by unorganized players. We upgrade our rating to BUY with a revised TP of Rs300 as we roll forward to FY19E (22x EPS – Rs13.6).

Plywood segment benefits from demand shift in favor of organized sector

In Q3FY17, plywood segment revenues increased by 11% yoy to Rs3.2bn on the back of a 7% increase in plywood volumes and sharp increase in realisations of commercial veneer. The increase in volumes was led by demand shift in favor of the organized segment as the unorganized segment saw shutdowns of many plants. CPBI expects this trend in demand shift to continue as January sales have also seen 5% yoy increase in volumes. Further, increase in prices by unorganized players will benefit CPBI. The Management has guided for a volume growth of 10% for FY18.

Margins in plywood segment increased by 60bps yoy to 14.7% during Q3FY17 benefitting from a change in product mix and decline in raw material expenses. Volumes for SAINIK brand declined by 4% yoy. Management expects prices for its products to largely remain stable given the GST rate expected to come at ~18%.

Laminates segment revenues increase sharply; margins disappoints

In Q3FY17, revenues for laminates segment increased sharply by 22% yoy to Rs979mn mainly led by 13% increase in volumes and 6% increase in realisations. Volume increase was equally strong in the domestic as well as export markets. While, realisations in export markets have seen some pressure, the domestic market benefitted from change in product mix. CPBI focused on increasing its market share instead of focusing only on profitability. This has led to decline in margins by 70bps yoy to ~13%.

The Management expects the growth momentum to continue (higher double-digit growth on a low base). Further, current market share of 5-6% in this segment leaves immense scope for growth.

MDF segment to contribute to growth from FY18

CPBI's upcoming MDF project is on track and company expects commissioning by March 2017. Management continues to remain positive on prospects of this business on the back of GST implementation which will lead to shift in demand from cheaper grades of plywood to MDF. Further, CPBI plans to introduce various other product categories like pre-laminated MDF, Flooring, Furniture, Doors made from MDF will drive growth in this segment. Management expects MDF segment to generate revenues of Rs4bn in FY18 and Rs6bn with complete utilization and value addition.

Demand shift in favor of organised sector now a reality; Upgrade to BUY

While we have maintained EPS for FY17E, we have cut our FY18E EPS estimates by 5% factoring in slight moderation in plywood segment growth and slight decline in margins for laminates segment. However, Management continues with to target its previous growth rates of 10% yoy increase in prices and 15% yoy increase in volumes. We believe that organised players like CPBI will be key beneficiaries of GST implementation as 70% value wise market share and 80% volume wise market share in plywood sector is held by unorganized players. We upgrade our rating to BUY with revised TP of Rs300 as we roll forward to FY19E (22x EPS – Rs13.6).

DISCLAIMERS AND DISCLOSURES: Emkay Global Financial Services Limited (CIN-L67120MH1995PLC084899) and its affiliates are a full-service, brokerage, investment banking, investment management and financing group. Emkay Global Financial Services Limited (EGFSL) along with its affiliates are participants in virtually all securities trading markets in India. EGFSL was established in 1995 and is one of India's leading brokerage and distribution house. EGFSL is a corporate trading member of Bombay Stock Exchange Limited (BSE), National Stock Exchange of India Limited (NSE), MCX Stock Exchange Limited (MCX-SX). EGFSL along with its subsidiaries offers the most comprehensive avenues for investments and is engaged in the businesses including stock broking (Institutional and retail), merchant banking, commodity broking, depository participant, portfolio management, insurance broking and services rendered in connection with distribution of primary market issues and financial products like mutual funds, fixed deposits. Details of associates are available on our website i.e. www.emkayglobal.com

EGFSL is registered as Research Analyst with SEBI bearing registration Number INH000000354 as per SEBI (Research Analysts) Regulations, 2014. EGFSL hereby declares that it has not defaulted with any stock exchange nor its activities were suspended by any stock exchange with whom it is registered in last five years, except that NSE had disabled EGFSL from trading on October 05, October 08 and October 09, 2012 for a manifest error resulting into a bonafide erroneous trade on October 05, 2012. However, SEBI and Stock Exchanges have conducted the routine inspection and based on their observations have issued advice letters or levied minor penalty on EGFSL for certain operational deviations in ordinary/routine course of business. EGFSL has not been debarred from doing business by any Stock Exchange / SEBI or any other authorities; nor has its certificate of registration been cancelled by SEBI at any point of time.
