4QFY17 RESULT REVIEW

Century Plyboards (I) Limited

Exciting times ahead!

Century Plyboards (I) Ltd. (CPBI) reported in-line operating performance. Revenue at INR4.9bn grew ~9% YoY (Antique: INR4.7bn). Both Plywood and Laminate segments registered decent value growth of 9%/7% YoY respectively. However, Plywood volume growth was flattish at 1% YoY while Laminate volume grew 11% YoY. Overall, EBITDA margin was flat YoY at ~17% as improved Plywood margin (+410 bps YoY at 20%) was negated by lower margins in both Laminates (-470 bps YoY at 12%) and CFS (-590 bps YoY at 38%). EBITDA came in at INR840mn (+10% YoY; Antique: INR784mn). High other income at INR140mn (10x YoY; mainly due to forex write backs) and lower interest expense (-75% YoY) supported net profit coming in better than expected at INR559mn (+34% YoY; Antique: INR439mn).

We have raised our FY18E/19E revenue/net income estimates by 2%/2% and 3%/4% respectively. Consequently, we have increased our target price to INR267/share (INR255 earlier), valuing CPBI at 20x FY19E EPS. We maintain our BUY recommendation on the stock.

Lower RM costs, Product-mix, and Forex gain pushed up Plywood margin

Although volume growth for the Plywood segment was flat at 1% YoY, better product mix (which led to 8% YoY blended realization growth) and usage of relatively lower priced veneer (from Laos/Solomon Islands vs Myanmar) led to segment operating margins improving ~410 bps YoY to ~20% during the quarter. Segment margin was also supported by a segment-specific forex provision writeback which improved margin by ~100 bps. CPBI expects sustainable margins of ~17% for this segment in the years ahead.

35% revenue growth expected for FY18E on back on starting of MDF operations from 2Q

CPBI expects FY18E to be far stronger vis-à-vis FY17 due to multiple internal growth factors - (1) MDF plant expected to be commissioned by June/July 2017, (2) forward integration units for MDF plant like prelam MDF, doors, etc., (3) New plywood factory established in Guwahati, (4) Full year operation for Chennai Particle Board plant, and three laminate lines to be commissioned in the same premises over the next 3 months, (5) Laminates capacity to be expanded overall by 50% from current levels (to be concluded by September/October 2017), and (6) general increased demand for Plywood expected due to higher stress on unorganized sector in the post GST era. CPBI expects ~INR3.5bn increment revenue to come out of MDF/Laminate expansion alone. Overall, the company expects top-line growth of ~35% during FY18E and remains positive of meeting its FY21E objective of INR50bn revenue.

Other Salient Conference Call Highlights

(1) MDF EBITDA margin expected to be 30-35% due to lower RM costs, (2) Not resorting to price cuts to protect/gain market-share in current environment, (3) Expect India's MDF capacity to increase over 100% over the next 3-4 years (mostly in South India), (4) Higher MDF capacity would threaten imported MDF first, then cheap plywood. Domestic MDF players have enough headroom to grow, (5) Myanmar government logging ban has been removed since April. Laos ban on export of veneer is not expected to be removed soon. CPBI has converted its veneer plants there into Plywood plants to circumvent the ban.

Valuation

We increase our revenue/earnings estimates by 2%/2% and 3%/4% respectively for FY18E/19E. Our revised estimates now build in a revenue/earnings CAGR of ~21%/~25% respectively for the FY17E-19E period. We retain our BUY rating and our FY19E P/E multiple of 20x. Our revised target price stands at INR267 (earlier INR255).
